

OUR SUCCESS is measured by what we accomplish, not by what we promise. Sixty thousand pocket meters sold in 1909 marks the fifth milestone of successful progress. Two hundred thousand sold in five years show that our supremacy in this field is not a matter of chance, but was attained by hard work and painstaking effort. Why experiment with untried makes when Hoyt meters cost no more? If you would use meters of the highest quality, see that they bear these designs on the dial.

Volts. Amperes.

Ammeters, 0 to 30, \$2.00. Voltmeters, 0 to 10, \$2.50
 Voltmeters, 0 to 10 volts, 0 to 30 amperes, \$3.00
 Sold by all the Leading Supply Houses.
